Abstract

The abstract should be suitable for direct inclusion in abstracting services as a self-contained article. The length of the abstract should not exceed 200 words. Do not include figure numbers, table numbers, references or displayed mathematical expressions.

]

1 Introduction

This is the introduction section. Your text goes here. All paragraphs must be justified.

The IET template requires A4 paper with double-column format, 8.8 cm column width with 0.4 cm separation, and single spacing throughout [1].

1.1 Second Level Heading

Second level headings should be in italic font, 10pt. The paragraph should start on a new line.

1.1.1 Third Level Heading: The third level section headings should also be in italic font but should end with a colon. The text for that section should run on and not start as a new paragraph.

2 Methodology

Enter methodology section here.

3.1 Figures

Graphics may be full colour. Each figure should be explicitly referred to in numerical order and should be embedded within the text at the appropriate point. An example is shown in Fig. 1. For subfigures, use the following format:

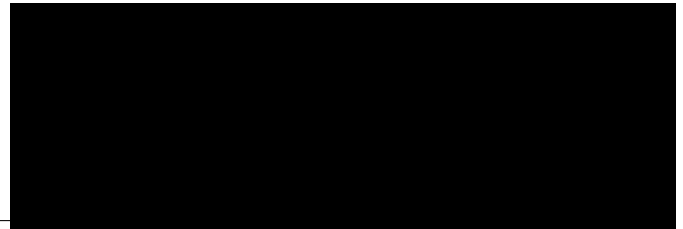

Fig. 1 Example figure caption describing the content of the figure.

(a)

(b)

Fig. 2 Example with subfigures: (a) Subfigure 1, (b) Subfigure 2.

3.2 Tables

Tables should be formatted with no column lines unless essential. Table captions must be above the table. An example is shown in Table 1.

Table 1 Example Table

Column Heading	Column Heading Two	Column Heading Three
Row 1	Row 1	Row 1
Row 2	Row 2	Row 2

3.3 Mathematical Equations

Equations should fit into a two-column print format. Refer to equations using round brackets, e.g. (1).

$$y = ax^2 + bx + c \quad (1)$$

Vectors and matrices should be in bold italic:

$$\mathbf{F} = m\mathbf{a} \quad (2)$$

4 Conclusion

Submissions should always include the following sections: an abstract; an introduction; a conclusion and a references section.

5 Acknowledgements

Acknowledgements should be placed after the conclusion and before the references section.
